

THE HERALD.

WEDNESDAY, SEPT. 13, 1882.

JUDGE BOWDEN has been chosen presiding Judge of the Superior Court, which began its first session Monday.

Judge HARRIS, the pet of the mountaineers, and the "brilliant" successor of the murdered Judge Elliott, has proven himself to be unworthy of the place he occupies. At every political convention where there is any dirty work to be done, Boss Hargis is the man who does it. He will trust to no subordinate, but puts his own hand to it and does it himself. The Lexington *Transcript* says of him: "He was born under an evil star as a lucky star. No man in Kentucky has ever advanced so rapidly as he in political preferment; and at the same time has never pursued any man in the State as perseveringly as he pursues him. He has a brilliant mind; his wit is keen as a rapier, and his satire is sharper and deadlier than a serpent's tooth; but he is cursed with an overweening ambition and blunted moral perceptions. With him the end is too apt to justify the means. He aspires to carry Kentucky in his breeches, and already counts on the number of men who have bowed before him, not excepting Henry Clay. Intellectual as he is, he has not the calibre for the job, and there is already an open revolt against Hargis rule all along the line.

Tennessee Letter.

August 26th, 1882.

Ohio county is one of the most Western counties in the State—Lake being the only one West of it—and is one of the best, if not the best, in the State. The soil here is well adapted to the cultivation of almost any crop the farmer may choose to raise. The wheat crop harvested this year was the largest in the history of the county, both in yield and in acreage. It has brought an immense amount of money to the people here—relieving temporarily, the tight times the people have been experiencing for some time past. The corn outlook is very promising and if the season is ordinarily favorable from now on till corn is matured, an unusually large crop is anticipated. Correspondents from this section are unanimous in reporting the crop in a thriving condition. We are not making the least calculations about starving to death, and we expect to live as long as we see any one else living. Other crops are in good condition, with the exception cotton, which is not doing well, owing to a great measure, I suppose, to the cool weather in May and the great amount of rain since.

The lumber and milling business has reached gigantic proportions within the last few years, and has brought a vast amount of money into use here and has given employment to a great number of laborers. There has been a great deal realized from the sales of timber. There are at this time sixty-two saw-mills in the county, and the amount of lumber cut by them annually is almost incredible. It is mostly all hauled to Union City, Rives and Polk Station, and from these points is shipped North. As a general thing it has to be hauled from 5 to 15 miles and the hauling costs from \$2.00 to \$3.50 per thousand feet. I was talking to a mill-owner some time ago and asked him how much the moving of the lumber from the mills to the railroads costs the owners of the mills, and he remarked that it costs not far from forty thousand dollars annually. A man can make a living but a fortune hauling lumber. I heard a hauler say a few days ago that he was not obliged to haul for a living—that it was a mere matter of choice—he said he could either haul lumber or starve.

Our county election is over quite quietly, and resulted in one respect like all other elections do, that is, in the defeat of more candidates than were elected. Our county is largely Democratic and of course elected a Democratic and of course elected a straight-out Democratic ticket. While our people are united on county affairs, they are sadly divided on the State affairs—principally the State Debt question, and the different candidates for Governor. Bates seems to be the strongest man, but Fussell is by no means without friends and supporters. I have heard several express themselves, that they would gladly vote for Bates if they could scratch his platform; so you see Bates is popular, but his platform is not. The idea of voting for Bates is a big pill for the Democrats to swallow. Who voted for John W. Wright, from the fact that he is of the faction who bolted the convention two years ago, I do not know.

Ohio county has another object of considerable interest—namely, Redwood Lake, which attracts great numbers of sporting visitors every fall. This great natural curiosity was formed by the great earth-quakes which, in the language of a writer, after shaking the valley of the Mississippi to its center, and extending its vibrations all over the valley of the Ohio, and Pittsburgh beyond, passed the Alleghenies and their connecting "mountain barriers, and died away along the shores of the Atlantic Ocean." It is supposed that this great and appalling phenomenon that this lake was formed which previously had no existence. It is about twenty miles long and from three to ten miles wide. It is a great resort of water-fowl and full of excellent fish. During the fall months there is a constant run of guns on the lake—boon-boon! from morning till night. Ducks and geese are killed in countless numbers and yet the amount seems never to diminish or grow less. Sportsmen visit the lake from St. Louis, Cincinnati, Nashville and other places. Can't you lay aside your editorial pen for a few days, Mr. Editor, and come down here and enjoy a few days rare sport with us Ohio boys?

For fear my letter is too long I will close, wishing the HERALD and its enterprising editors the greatest possible success.

Respectfully,

J. R. LEE.

very ably showed to the people the benefit of a Sunday school in any community.

A party of young people from the Grove contemplated going to the Saturday night dance at the near future. Several of the young people of the Grove attended the ball at Centertown on the 23rd of August. All report a pleasant time.

The entertainment at Mr. L. J. Isham's on Saturday night, August 26th, was one of enjoyment.

Mr. W. B. Miller began school at the Grove on the 4th inst., with flattering prospects for a good school, but was taken sick on the 5th and had to discontinue for the week. He will be assisted by Miss Lela Miller. Mr. Lee Bennett will teach the district school at Slatt Point this winter. He will begin next Monday.

Died, August 13th, of typhoid fever, Joseph S. Fulkerson, son of J. B. and Mary Fulkerson, in the 9th year of his age. His remains were interred in the cemetery on the 14th. Only three weeks previous they lost their only daughter with the same fever.

Reverend brother of color, living near McHenry, has lost his wife, oldest son and daughter in the last two months. All died of typhoid fever. I learn that two others are not expected to live.

One Experience from Many.

I have been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said: "Hurrah for Hop Bitters! Long may they prosper, for they have made mother well and us happy."—The Mother.

Hop Bitters are the Purest and Best Bitters Ever Made.

They are compounded from hops, malt, lichen, manna and a hundred other—oldest, best, and most valuable medicines in the world, and contain all the best and most curative properties of all other remedies, being the greatest blood purifier, liver regulator, and life and health restoring agent on earth. No disease or ill health can possibly long exist where these Bitters are used, so varied and perfect are their operations.

They give new life and vigor to the aged and infirm. To all whose employments cause irregularity of the bowels or urinary organs, or who require an appetizer, tonic and mild stimulant, Hop Bitters are invaluable, being highly curative, tonic and stimulating, without intoxicating.

No matter what your feeling or symptoms are, what the disease or ailment is, use Hop Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use Hop Bitters at once. It may save your life. Hundreds have been saved by so doing. \$5.00 will be paid for a case they will not cure or help.

Do not suffer or let your friends suffer, but use and urge them to use Hop Bitters.

Remember, Hop Bitters is no vile, drugged, drunken nostrum, but the purest and best medicine ever made—the "Invalid's Friend and Hope," and no person or family should be without them. Try the Bitters to day. 35¢.

From Eminent James H. Southall.

M. D., Little Rock, Arkansas: "I willingly bear testimony to the excellent food tonic effect of Golden's Liquid Hop Bitters. I regard it as a mild, unobtrusive and easily digested tonic, well adapted to cases of debility, nervousness, and vascular debility, consequent upon the climacteric period of women." (Remember the name, Golden's—take no other.) Of druggists generally.

Sulky Plow Carriage!

The Triumph of the Age!

In presenting the Kansas King Sulky Plow Carriage to the people, I do so with the full assurance that it has no superior. It is without a parallel for simplicity, durability, quality of work, lightness of draft and ease of management. Any plow can be used on the Kansas King Carriage, thus making a great saving over the ordinary sulky plow.

Read the following testimonials of farmers and others who have tested the plow:

HAIRFORD, Ky., Sept. 8, 1882.

We have rigidly tested the Kansas King Plow Carriage in land which has not been cultivated before for many years, and which had a very heavy coat of sedge grass, sprouts and briars on the farm of W. B. Bender, and we have no hesitancy in pronouncing it the best Sulky Plow Carriage we have ever tested or have ever seen tested.

It possesses some very important advantages over any others of which we have any knowledge.

DEAR SIR:—In response to your inquiry as to what I think of the Kansas King Sulky Plow, I will say, that I have just returned from Kansas where your Plow Carriage is extensively used. I have used it myself and have seen it used by others and I do not hesitate to say that it is by all odds the best Sulky Plow that I have ever seen. The draft is not more than two-thirds that of other Sulky Plows, and none of them that I have seen compare with it in any particular. Where I have seen your Plow Carriage introduced the farmers have discarded all others.

"My dear Rose," said Miss MacIver, "where did you acquire that brilliant complexion?" It seems to me that you are still the beautiful girl of eighteen whom I knew twenty years ago." "My friend," replied the lady addressed, "it is not me you are complimenting, but 'Glenn's Sulphur Soap.' Have you never before witnessed its effect? There is nothing impossible to its powers as a beautifier." Beware of counterfeits. See that C. N. Crittenton, proprietor, is printed on each packet, without which none is genuine. A NOTED BUT UNTILTED WOMAN.

Miss Rose, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Women," as some of her correspondents have fondly for her, she is anxiously devoted to her work, which is the outcome of a life's study, and is obliged to keep it up day after day, to help her fellow-creatures, who are afflicted with the "Dear Friend of Women," which daily pains upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of its worth.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. It will cure all the diseases of the female system, such as Menstruation, Abnormal Discharges, Inflammation and Obstruction, Pains, Headaches, Nervous Prostration, Indigestion, and all the consequences of a disordered system, and is especially adapted to the "Change of Life."

It purifies every portion of the system, and gives new life and vigor. It removes flatulency, distention

Mr. Geo. McManama, who for two years has held a position in Mr. S. W. Anderson's store, left last week for his home in McLean county. George is one of the best boys who ever lived in Hartford, and his late employer informs us that never a better clerk looked over a counter and that he never should have left if money could have kept him. Such praise from a strictly business man is well worth winning.

-Sourbeer & Steele, agents for the Singer machine, have opened an office in the building formerly occupied by A. C. Etzel.
-In another place appears an item about a young man who walked six miles to Hartford to hire a horse and buggy. That young man's head was level if he got his rig from Uncle Ras. He keeps only the best. Put up with him when you come to the fair.

-Look out for the flags.
-Pike's Toothache Drops cure in one minute.
-Go to the Bazaar and see the lovely lace.

-The four boys, Jno. H. Leach, Emmett and Jno. Taylor and Will Hocker, who passed through Hartford August 1st enroute for Texas, arrived at their destination Sept. 3.
-Persons who subscribed contributions for building the Baptist church in the town of Hartford, will please pay them to S. W. Anderson as soon as possible, as the committee wish to put the building under way at once. Some of the contributions which were due in July have not been paid, the parties having, doubtless, forgotten about them.
-Telegraphic dispatches report that Walker carried Brockenridge county in the primary election Saturday. This starts him in the convention to-day with twenty-one votes, according as the vote is based on the Hancock or Blackburn vote. The result of the convention is doubtful, but let us hope all may be done fairly and well.
-The contested election case of Midkiff vs. Beau, notice of which was served by plaintiff on the defendant on the 18th day of August, 1882, and which was set for trial on Monday, September 11th, 1882, came up for trial on the day and hour specified by law. Then came the plaintiff, Midkiff, and prayed a dismissal of suit, which was granted. No good came of such cases and it is well probably that the suit was dismissed, as a great deal of cost to both parties was saved and in all probability the result would have been unchanged.

-If you want to go into ecstasies see the neckwear at Anderson's Bazaar—it is poetry in lace.
-An infallible remedy for fever and ague is Ayer's Ague Cure. Wholly vegetable and containing no quinine, it is harmless and sure.
-Terra cotta and maseotte are the stylish colors in dress goods this season—you can get them at Anderson's Bazaar.
-Thomas Bros.' will have five tons of goods shipped to them this week. Think of it. 10,000 pounds of goods for one house at one shipment.

-The Mammoth Cave party, from Calhoun, passed through town on their return home last Monday. G. W. Gates, Esq., and Drs. Letcher and Gales called on us. They report a pleasant and prosperous trip.
-By a typographical error in the last issue of the Hartford College News, Mrs. Vaughn's rates for board were put at two dollars and twenty-five cents per week. Two dollars and fifty cents is the price she has for regular boarders with room.
-Fifty wagon loads of hoop poles and staves go into Caneyville every Saturday and Anderson & Gibson are having a bonanza. They do a one price cash business much after the plan of Anderson's Bazaar of this place and the people catch on to it with a vim.
-Mrs. R. J. Morris will return about the last of this week with a superb stock of millinery goods for the New Store. She is one of the most accomplished milliners in the State and has a carte blanche in the purchase of her stock. She will have everything that taste or fashion demands.
-Two parties are now in the East buying goods for Rowe's New Store. Just wait until the goods come and you will see such a display as never greeted your eyes before. The quality will be more wonderful than the display and the prices still more wonderful than the quality. They are so low that you have to reach down to get them.
-Go to the Bazaar to see the new things. You need not buy unless you wish to. It is a splendid place to spend a couple of hours. They have plenty of room now and you won't be in the way. Miss Alice has a whole room to herself and everybody is always welcome whether they come to buy or only to look.
-Mr. C. A. Carson, Circuit Clerk of Butler county, died of typhoid fever at his home in Morgantown several days ago. He was elected Circuit Clerk in 1880, and to the time of his illness gave the most universal satisfaction as an officer. He was a son of James Carson, Esq., a well-known and influential citizen of Butler county.

-Last Saturday evening some of the boys from the country came to town and got on a regular high daisy and proceeded to paint the town red. Frank Peyton attacked Joe Magee and was proceeding to display his flat talent by placing his blows on Joe's anatomy in spots where the best results could be secured. Joe stood it long enough to get his knife out when he gave Frank a cut on the head. They were then parted. Frank, at intervals, continued to pound Joe, but no more fighting was indulged in. No attempt was made to arrest any of the parties, though, we understand, Marshal Greenwood finally put in an appearance and asked the boys what they meant. They replied by bidding him good evening and left for home. They will come back and repeat the show again, probably. They are not afraid to do so as our new Marshal showed plainly, by his absence and his action, that they need have no fear of him.

-Deputy Sheriff Marion Yates has been confined to his bed for seven weeks at his home in the country. He has typhoid fever and is convalescing.
-Remember Dr. Baldwin will be here to do work on that mouth of yours Friday. He may be found at Judge Moseley's until the 19th inst.
-The new students at the College are a gentlemanly set of fellows and the people are destined to become as much attached to them as they have to their predecessors.
-A prophet is not without honor, save in his own country. Some time ago we predicted a wedding in Hartford, but our prophecy has come to naught. Wait and watch.
-Dr. H. Baldwin, the dentist, will be at Judge Moseley's Friday of this week and will remain until Wednesday of next. If you need any dental work don't lose this opportunity.
-Mr. J. K. Tanner brought in some beans Monday which by far excel anything of the kind we have ever seen. They are eleven and one-half inches long and from one and one-fourth to one and one-half inches broad, both together weighing five and one-half ounces. Larger beans may be grown, but we have yet to hear of them.
-Judge O'Flaherty says the remarks we made about him last week did him great injustice, that he had no thought of destroying the harmony of the convention, etc. Very well. We hear him no ill will, and are willing to give him everything he merits. After all we acted on Burns's
"O, wad some power the giftie gie us
To see ourselves as others see us,"
and if it may from blunders free him, and foolish notions, we shall be gratified and shall think that our career has not been in vain.
-Saturday evening Dave Holbrook and Sam Penleton, two negroes, had a difficulty which, for a time, looked as though it could end in nothing but blood and a large amount of it. Both are desperate characters and no one thought of less than a fight. Sam had a brick-bat and was standing quietly waiting for a chance to knock Dave on the head. Suddenly an accident revealed to him a brick-bat in Dave's torn pocket. Sam regarded it cautiously for a few minutes and finally remarked, "Honest to God, you's got a brick-bat, too!" The row willed like a sweet potato vine after a hard frost, and no more was heard of either of the negroes.
-We call your attention to the advertisement of Simmons Liver Regulator, which appears in the paper of to-day. This standard remedy, the only genuine of which is manufactured by J. H. Zell in & Co., and of which they are the sole proprietors, does not deserve to be classed with the many "patent" nostrums so liberally advertised throughout the country. It is one of the very best preparations in use, and is recommended by the regular practitioners of medicine. It has a large sale in this city, and can be found in all our drug stores. A bottle or package should be found in every family, as its judicious use is almost sure to prevent a bilious attack if taken when the symptoms first show themselves.

Chronic constipation, chronic dyspepsia, chronic diarrhoea, promptly cured by using Brown's Iron Bitters. It is a complete strengthener of the digestive organs.
-Through the kindness of Mr. J. H. Butler, of Bowling Green, proprietor of the Kansas King Sulky Plow Carriages, we had an opportunity of seeing the carriage at work on the farm of Mr. W. B. Bender, near town, last Saturday morning. The field in which the plowing was being done had been thrown aside for several years and was covered with a thick growth of broom-sedge and a few briars. The plow turned all under with great ease and the two horses walked along as easily, apparently, as if they had no load at all. Mr. Bender commenced plowing the field with a walking plow of the best make, but it did very poor work. He is so well pleased with the Kansas King that he could not be induced to part with it and it is our opinion that every other farmer would be the same way. What our farmers should want is new machinery of all kinds, improved stock and improved ways of getting along in everything. Until we drop the methods pursued by our grandfathers we can never prosper.
